

Cornell University Laboratory
for Elementary-Particle Physics

Charm 2007

International Workshop on Charm Physics

- ✿ Leptonic and semileptonic charm decays
- ✿ Advances in Lattice QCD
- ✿ Excited states of charmonium
- ✿ Radiative and hadronic decays of charm and charmonium
- ✿ New limits on charm mixing and CP violation
- ✿ Future facilities

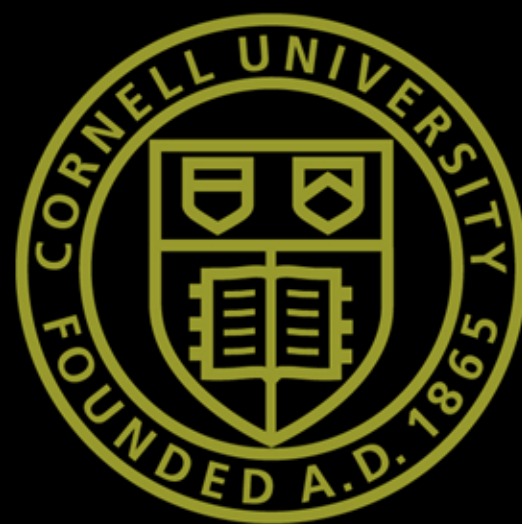

August 5 – 8
Cornell University
Ithaca, New York, USA

INTERNATIONAL ADVISORY COMMITTEE

Jeffrey Appel	Fermilab, USA
Ikaros Bigi	University of Notre Dame, USA
Nora Brambilla	University of Milan, Italy
Kuang-Ta Chao	Peking University, China
Frank Close	University of Oxford, UK
Michael Danilov	ITEP, Russia
Tim Gershon	University of Warwick, UK
Andreas Kronfeld	Fermilab, USA
Yu-Ping Kuang	Tsinghua University, China
Hai-Bo Li	IHEP, China
Antonio Pich	IFIC, Valencia, Spain
Klaus Peters	GSI, Germany
Ian Shipsey	Purdue University, USA
Mike Sokoloff	University of Cincinnati, USA
Yifang Wang	IHEP, China
Ulrich Wiedner	Ruhr-Universität Bochum, Germany
Bruce Yabsley	University of Sidney, Australia
Masanori Yamauchi	KEK, Japan

LOCAL ORGANIZATION COMMITTEE

Anders Ryd, Chair	Cornell University, USA
David Asner	Carleton University, Canada
Davor Bakula	Cornell University, USA
Jeanne Butler	Cornell University, USA
Richard Galik	Cornell University, USA
Hanna Mahlke	Cornell University, USA
Jim Napolitano	Rensselaer, USA
Ritchie Patterson	Cornell University, USA
Monica Wesley	Cornell University, USA
