

## First Look at Early Conditioning in a TiN-coated Aluminum Vacuum Chamber

Jim Crittenden & John Sikora

Cornell Laboratory for Accelerator-Based Sciences and Education

CESRTA General Meeting

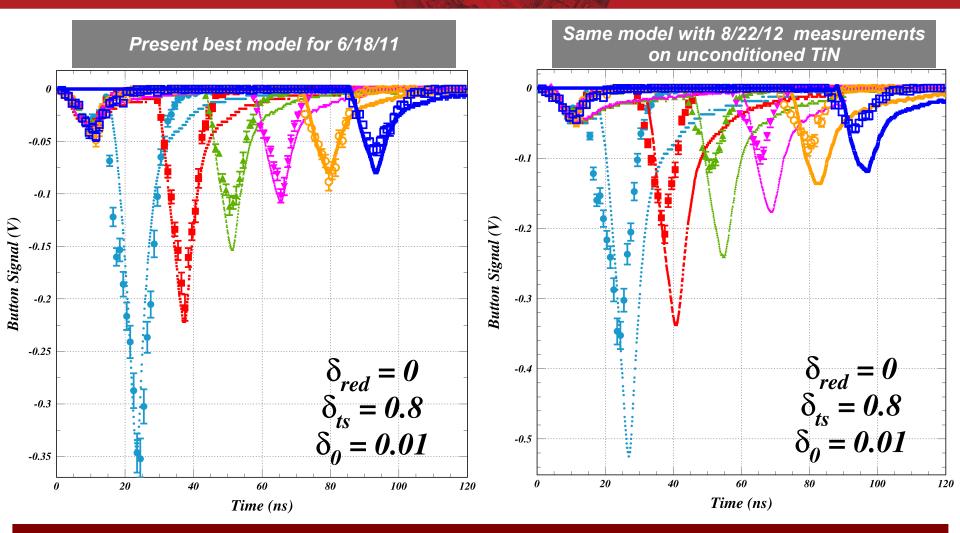

24 August 2012

Cornell University Laboratory for Elementary-Particle Physics Witness Bunch Study for TiN-coated Aluminum Compare today's measurements to those of 6/18/2011 15W 5.3 GeV 5 mA/bunch e+ 14-ns spacing

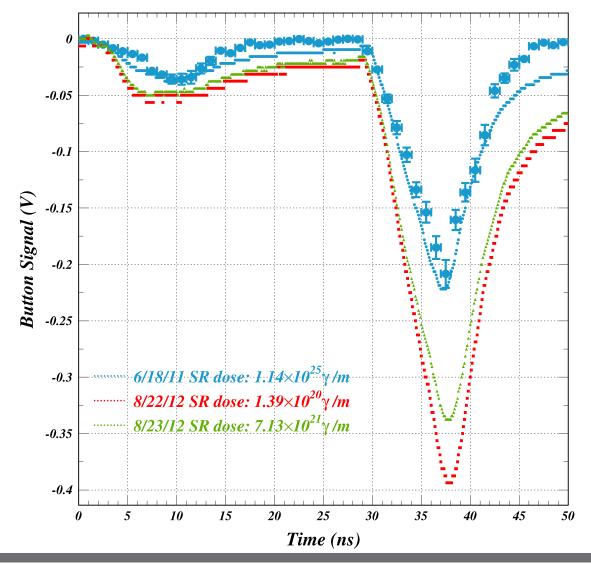

Initial indication is the the quantum efficiency is similar, but there is much more cloud due to SEY.

24 August 2012 First Look at Early Conditioning in a TiN-coated Aluminum Vacuum Chamber / J.A. Crittenden & J.P. Sikora

Conditioning comparison: 5.3 GeV e+ 15W TiN
