DESCRIPTION — The Series ZSC 2-way power splitter/combiner is a high performance broad band hybrid junction. Signals fed into the input S port are equally divided, in phase, to the two output ports. Similarly, signals fed into ports 1 and 2 are vectorially summed at the output S port. Typically, over most of the frequency range, the phase balance is within 2 degree and the amplitude balance is within 0.5 dB.

Housed in a die cast aluminum case, these rugged units are double shielded to meet tough EMI requirements. The case is finished with a blue baked enamel per Federal Standard 595 #25109 or phosphoric etch per MIL-C-1532BA.

High reliability is associated with every MCL unit. Every unit is 100% tested and carries a one year guarantee.

ELECTRONIC ATTENUATOR/SWITCH

ZAS SERIES

MODEL	FREQUENCY	Z(0Ωms)	COST
ZAS-1	5 MHz - 450 MHz	50	\$45.95 (4-24)
ZAS-3	1 MHz - 200 MHz	50	\$46.95 (4-24)

DESCRIPTION — The ZAS series of electronic attenuator/switches enable attenuation control of RF signals with a maximum of only 20 mA of control current. Due to the specific properties of these attenuators, for a single frequency input all harmonics even and odd order, are virtually eliminated at the output. As a consequence the intercept point is greater than +45 dBm.

The attenuator/switches are economically priced while covering the very broad frequency range from 1 to 450 MHz. They offer low insertion loss, 1.5 dB, high isolation 50 dB, and exceptional unit to unit matched performance.

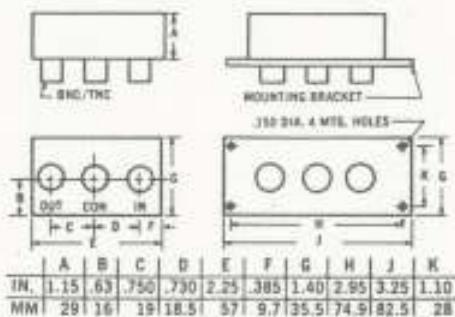

Having BNC connectors as a standard, the ZAS series has as an option TNC connectors at no cost.

The ZAS series is housed in a die cast aluminum case. These rugged units are double shielded to meet tough RFI requirements. The case is finished with a blue baked-enamel per Federal Standard 595 #25109 over phosphoric etch per MIL-C-15328A.

High reliability is associated with every MCL unit. Every production run is 100% tested and every unit must pass our rigid inspection and high quality standards.

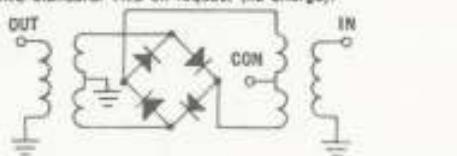

Naturally, our one year guarantee applies to these units.
