				<b>NOTES TO USERS:</b>																																																				
				1. Mileage is taken from the Distance/Elevation chart. Daily mileage has been adjusted from that shown in TREKS where noted. However, some figures (especially for Valle routes) are suspect. TREKS 2002 has attempted to include mileage to all programs noted, sidehikes, and for food pickups - all issues generally ignored in prior versions.																																																				
				2. Program shown in <i>italic</i> on Trail camp days are not listed in the TREKS booklet, but the itinerary passes near or through a Staffed camp with program.																																																				
				3. Programs shown in <i>italic</i> at Staffed camps are not listed in the TREKS booklet for that particular itinerary (horse rides being the sole exception - listed only if included in TREKS).																																																				
				4. Dinners in <i>italic</i> are not listed in the TREKS booklet, but are noted as one less meal in the "menu no." column. A question mark denotes meals that are neither listed nor noted.																																																				
				5. Elevations are from a posting of GPS coordinates for Philmont camps by R. Dudley Koy, M.D. @ <a href="http://www.lns.cornell.edu/~seb/philmont-waypoints.html">http://www.lns.cornell.edu/~seb/philmont-waypoints.html</a>																																																				
				6. Itineraries can and do change from year to year - <b>verify with the latest TREKS booklet before sending in your itinerary selection card!</b> <b><i>This is probably especially true for 2003 North Country treks after the 2002 Fire!!!</i></b>																																																				
				<b>PRINTING SUGGESTIONS</b>																																																				
				1. This spreadsheet is designed to be printed on five (5) pages in landscape mode, without these notes. On 8 1/2 x 11 sheets, the program summary should not be included, and the print will still be small! The program summary can be included if printed on 8 1/2 x 14 sheets. For ease of use (and to reduce eye strain) print on 11 x 17 sheets, if you have access to a printer that can handle that size paper or enlarge to that size by photocopying.																																																				
				2. If the crew has identified several programs as their preferences, changing those columns in the Program Summary to <b>bold</b> and/or a larger font will make itineraries with those programs stand out from the others.																																																				
				Questions / Corrections / Comments / Suggestions should be forwarded to Alan Thomson via e-mail @ <a href="mailto:athomson78@hotmail.com">athomson78@hotmail.com</a>
